

Engineered Systems Solutions

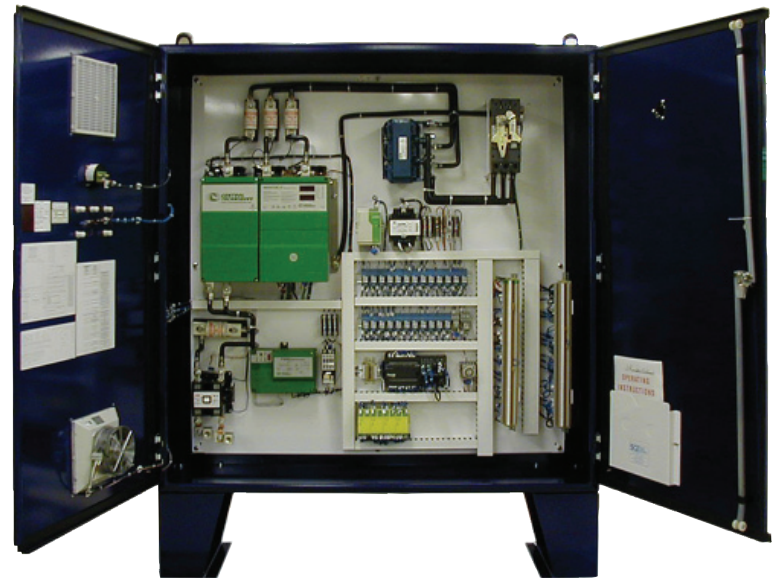

Newspaper Printing industry can “Consider it solved”

The old saying, “If it isn’t broken, don’t fix it,” doesn’t apply in the Newspaper Printing Industry. Too much is at stake to chance equipment failure in the middle of an edition. A drive retrofit solution from Emerson/Fincor Automation can help insure successful deadlines by improving up-time, reliability and assuring safety.

Insuring a successful retrofit is our promise. With over 50 years of building AC and DC drives, and retrofitting systems for the printing industry, Control Techniques and Fincor have the experience and the products to meet and exceed customer expectations.

Get the Emerson People Advantage

- Worldwide experience in applying AC and DC variable speed drive systems in the printing industry
- A highly trained support network of electronic, electrical and mechanical engineers located in 50 Drive Application and System Engineering Centers, 12 in North America are available to serve you 24/7/356, with web and telephone also available
- Systems designed to ANSI B65.1 Standards for Safety. Whether it is a complete drive system replacement or a component upgrade, the same quality is designed into the job
- Field service specialists with expertise in drives and controls, but each with experience with a wide variety of OEM presses

Get the Emerson Product Advantage

- Complete Range of AC and DC drives from the leader in intelligent drive systems, backed by industry-best warranties and Emerson
- Rugged drives, controls and panels with easy-to-use keypads along with optional touch screens , intuitive software, and real-time diagnostic tools
- Redundant safety systems for maximum protection
- Fully compliant with ANSI, C-UL-US and CSA (Canada) at time of manufacture
- The industry’s best drive warranties, coupled with 24/7/365 field service and support, and on-line and toll-free support

For additional information on new or retrofit solutions for the Newspaper Printing Industry, contact:

Lee E. Hankey, Sales Manager, Printing Products
Fincor Automation
3750 East Market Street
York, PA 17402 USA
